1. New Tool: AI Engine Assistant

Generates prompts for AI in Natal Charts, Forecasting (Returns, Progressions, Directions, Transits, Lunations, Eclipses, Atacires, etc.) and Synastry.

Allows the generation of prompts in plain text and JSON format for use with AI systems.

For advanced users who have connectors with different AI providers, it offers the possibility to use APIs such as OpenAI, Gemini and Anthropic, displaying the results directly within the program in a text editor.

2. Tables of Planetary Revolutions of Mercury, Venus, Mars, Jupiter and Saturn (MAV9)

Added within Returns and Ingresses.

Allows the display of planetary revolutions as well as all direct and converse returns.

Each revolution can be visualized using the chronographic dial.

Les interesa formarse una idea del desenlace de la situación actual. Anticipan desenlaces. Adivinan. Confían en sus experiencias y conocimientos acumulados. Usan presentimientos para anticipar los hechos. Nada les sorprende, actúan como si ya supieran lo que va a ocurrir. Creen en las corazonadas. No le dan importancia a las explicaciones si de hecho han acertado. Es en primer lugar prometeico y en segundo lugar manifiesta tendencias de modelador. Tienen respuesta para todo, son de mente rápida y segura. Se dan un tiempo para aprender pero luego aplican de manera práctica sus conocimientos para conseguir resultados de manera rápida y segura.
